

PI Measures and Project Measures

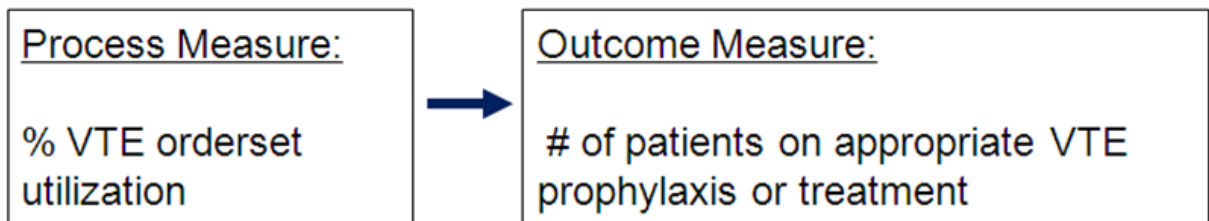

Types of PI Measures

- **Outcome measure**
 - > The result of the process
 - > Obtained directly from the aim statement

- **Process measures**
 - > The activities designed to cause an outcome
 - > Identified by issues in process steps and from solutions

Example: Project Measures

Project to increase the use of VTE prophylaxis:

Example: Project Measures

Project to discharge patients before 10am to decrease costs associated with length of stay:
