

## ***Problem Statement***

### **Template: Problem Statement**

#### **Example: Time, Performance, Impact**

Between \_\_\_\_ and \_\_\_\_, (the problem/issue) at \_\_\_\_\_ (hospital/location) was \_\_\_\_ which was below/above the national benchmark of \_\_\_\_ which led to (the impact).

#### **Example: Problem Statement**

- Between 1/4/13 & 2/15/13, the percentage of patients that received general anesthesia and experienced postoperative nausea and vomiting (PONV) at XYZ Medical Center was 43% which was above the national average of 30%, which led to an increase of time patient spent in PACU and a decreased overall patient experience.
