

# Patients' Right to Know

Texas employers and you, our patients, pay more for your health insurance but receive less for your dollar. Few patients really understand what their insurance dollar actually buys. All you know is that using insurance is really confusing. You pay big bucks for coverage and have a right to know what you bought.

**You deserve better.**

*Join the Cause.*

## ***Our patients have a right to know:***

- ✓ **What's covered in your insurance**
- ✓ **Which doctors and hospitals are in your network**
- ✓ **How much extra you will have to pay for health care services**
- ✓ **Why your premiums keep going up**

You need honest information on benefits, copays, deductibles, and health plan networks to make vital decisions about your health.

The Texas Medical Association is asking legislators to pass the 2009 Health Insurance Code of Conduct bill. The bill and others will hold big health insurance companies accountable for the promises they make to the Texans who buy their products.

Texas must pass laws to make sure health insurance dollars go toward your health care not elsewhere.
