

How to Keep *Trac* of Your Child's Shots

Immunizations are one of the most important, safe, and effective ways to protect your child.

ImmTrac is the free Texas immunization registry. This system benefits all children up to the age of 18. It will electronically track your child's immunization information if you move, forget when your child's next shots are due, or need quick access to the records.

ImmTrac is:

- ▶ **Secure.** Only authorized users including doctors, nurses, and schools have access to your child's information.
- ▶ **Connected.** ImmTrac enables doctors to generate reminders when your child's next shot is due or overdue.
- ▶ **Accessible.** Your child's shot record is available to authorized providers throughout Texas.
- ▶ **Convenient.** Your child's shot record is stored electronically.
- ▶ **Safe.** Using ImmTrac helps protect your child from receiving unneeded shots.

Ask your doctor for more information, or visit www.ImmTrac.com.

Be Wise — ImmunizeSM
Physicians Caring for Texans

Be Wise — Immunize is a joint initiative led by TMA physicians and the TMA Alliance, and funded by the TMA Foundation.

Be Wise — Immunize is a service mark of the Texas Medical Association.
