

# *Keep Your Child Healthy*

Vaccinations are one of the most important, safe, and effective ways you can protect your child.

Texas doctors care about you and your child. In the past four years, the Texas Medical Association Be Wise — Immunize<sup>SM</sup> program has administered more than 100,000 shots to Texas children. We want to keep your child healthy and safe. Make sure your child's immunizations are up to date. Talk to your doctor today.
