AGENDA

CMIE

EXPO

BUSINESS

Your premium doesn't just pay for coverage—it pays it forward.

Insurance is designed to cover a claim. But what if it could do *more*? What if it already was and you just didn't know it?

At TMA Insurance Trust, we manage coverage and handle claims like any insurer. But what happens beyond that is what sets us apart. When there's a surplus, the funds don't go to shareholders—because we don't have any. Instead, that surplus stays in the Texas medical community, *paying it forward* by funding resources physicians actually use.

We call it *Insurance For Good* because that's exactly what it delivers:

- Free CME courses to help you save hundreds each year
- 25% Savings on Own-Specialty Long Term Disability insurance **issued by The Prudential Insurance Company of America**
- Confidential, free mental health counseling through Anticipate Joy
- Support for County Medical Societies so local representation stays strong
- Funding for Member Sections to keep physician groups connected
- Emergency relief funds through the TMA Foundation

These practical, ongoing benefits are available to you, with no hidden costs or inflated premiums. Your TMA membership also includes exclusive insurance savings you won't find anywhere else.

Since 1955, our focus has stayed the same: supporting Texas physicians. Through purposeful reinvestment, your insurance brings value full circle—back to you and the physician community it was created for.

Get to know your insurance options, member savings, and the programs included with your TMA membership. Visit tmailt.org or call 800-880-8181, Monday-Friday, 8:00 AM-5:00 PM CST. ▶

Bradford W. Holland, MD
President, 2026-27
 TEXAS MEDICAL ASSOCIATION

A MESSAGE FROM THE 2026-27 TMA PRESIDENT

Welcome to TexMed 2026 in the beautiful coastal city of Corpus Christi!

The Texas Medical Association (TMA) is excited to fulfill our conference initiative, bringing TMA's programs, services, and distinguished speakers directly to our members across our great state – this event is a prime example.

TexMed 2026 features exceptional speakers, valuable CME opportunities, engaging social activities, and our robust House of Delegates (HOD). As the past Speaker of the HOD, I'm deeply passionate about the vital advocacy work we accomplish together in the House – from drafting and vetting health care policy resolutions to debating critical issues and honoring outstanding members of our organization.

I look forward to a productive and enjoyable meeting with all of you, as we collectively fight to protect the profession of medicine. Thank you for your time and dedication on behalf of everyone in TMA.

Bradford W. Holland, MD

Lydia Soldano
President, 2026-27
TMA ALLIANCE

Physician Spouses:
You're invited to
TMA Alliance's ALLMED,
happening concurrently
with TexMed 2026.

A MESSAGE FROM THE 2026-27 TMAA PRESIDENT

Continuing to advance the mission of the TMA Alliance – “to connect and support physician families and build a healthy Texas through community outreach and advocacy” – is my focus as I begin my year as TMAA president. This week’s TMA and TMAA joint annual conferences offer a powerful opportunity to gather as the Family of Medicine to strengthen relationships and celebrate the work we do together.

The alliance is proud to serve the Family of Medicine across Texas. Our commitment to improving the health of our communities runs deep, and we’ll continue to make an impact through TMA’s outreach programs and programs tailored to specific needs in our communities.

As we look ahead to the Texas Legislature in 2027, advocacy will be more important than ever. TMA and TMAA will stand united again at First Tuesdays at the Capitol – the award-winning program TMAA started in 2003 – to champion patient care and the practice of medicine in our state.

I look forward to serving our Family of Medicine in Texas alongside TMA President-Elect Bradford W. Holland, MD. Together, let’s continue striving to ensure Texas remains the best place to live, practice, and thrive.

Lydia Soldano

Texas Academy of Family Physicians
2026 Primary Care Update at TexMed

Omni, Corpus Christi Ballroom C

2-2:10 PM

Welcome

2:10-3:10 PM

Cases in Liver Disease (1 CME Credit)

Clare Hawkins, MD – Texas Chief Medical Officer, Main Street Health, Houston

By the end of this educational activity, learners should be better able to:

1. Describe the disease burden, natural history and management of nonalcoholic fatty liver disease.
2. Discuss screening strategies and new systemic therapies for liver cancer.
3. Describe end-stage liver disease complications and their management for primary care physicians.

3:10-3:25 PM

TAFP Update (0.25 CME Credits)

Ike Okwuwa, MD – President, Texas Academy of Family Physicians; Program Director, Family Medicine Residency, Texas Tech University Health Sciences Center, Odessa

By the end of this educational activity, learners should be better able to:

1. Discuss the Texas Academy of Family Physicians’ position on top state health policy issues for the patients of Texas.
2. Discuss involvement of family physicians individually and collectively through the Academy’s efforts and the vital importance of practice and patients.

3:25-4:25 PM

Differential Diagnosis and Treatment of Dermatitis (1 CME Credit)

Jimena Cervantes, MD – Professor of Family Medicine, Dermatology, and Cutaneous Surgery, UT Health San Antonio

By the end of this educational activity, learners should be better able to:

1. Diagnose common dermatitis and differentiate these entities from clinical look-a-likes.
2. Discuss important concepts in performing diagnostic skin procedures.
3. Prescribe topical treatments and know when to refer.

4:25-4:35 PM | BREAK

4:35-5:35 PM

Etiology, Diagnosis, and Management of Cardiomyopathy (1 CME Credit)

Grant Fowler, MD – Professor and Chair, Department of Family and Community Medicine, TCU Burnett School of Medicine / Chairman, Department of Family Medicine, Associate Program Director – JPS Family Medicine Residency, Fort Worth

By the end of this educational activity, learners should be better able to:

1. Differentiate the major types and etiologies of cardiomyopathy and recognize common clinical presentations encountered in primary care.
2. Interpret key diagnostic findings, including echocardiography results, to support accurate diagnosis and risk stratification of patients with cardiomyopathy.
3. Apply evidence-based management strategies and determine appropriate referral, including setting patient expectations for ongoing evaluation and treatment.

Accreditation Statement

The Texas Academy of Family Physicians is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. TAFP designates this live activity for a maximum of 3.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The AAFP has reviewed 2026 TAFP Primary Care Update at TexMed and deemed it acceptable for up to 3.25 Live AAFP Prescribed credits. Term of Approval is from 04/16/2026 to 04/16/2026. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

With You Today *and* Tomorrow

Free CME for Members

As your career progresses, you can count on **TMA** to be there for you. Providing no cost CME courses is just one of the ways **TMA** and **TMA Insurance Trust** are working on your behalf.

Choose from courses in Billing and Coding, Communications, Ethics, HIPAA, Medicare and so many more.

CME INFORMATION

AMA PRA CATEGORY 1 CREDIT™

The Texas Medical Association is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Texas Medical Association designates this live event for a maximum of **33 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The presentation, **Life of the Mother Act: What Texas Physicians Need to Know for Managing Pregnancy Emergencies**, has been designated by Texas Medical Association for 1 credit of education on the Life of the Mother Act (LOMA).

ETHICS CREDIT

The Texas Medical Association has designated certain lectures as meeting the requirements for physician ethics and/or professional responsibility. Look for the **E** icon to identify these lectures.

DEA SUD

The Consolidated Appropriations Act of 2023 enacted a new one-time, eight-hour training requirement for all Drug Enforcement Administration (DEA)-registered practitioners on the treatment and management of patients with opioid or other substance use disorders.

The presentation marked with DEA SUD is eligible to count towards the training requirement. Participation in this program in no way implies the participant has fully met the federally and state-mandated training requirements. Participants are solely responsible for ensuring any mandated training requirements are completed.

TMLT DISCOUNT

Texas Medical Liability Trust policyholders may be eligible for a 3% premium discount after completion of two (2) 1-hour risk management CME courses. Look for the identifying TMLT icon next to the individual session descriptions to find which sessions may be counted toward these education hours. As attendees enter the seminar, their barcode will be scanned for reporting purposes. The discount may be applied to the policyholder's next eligible policy period. Policyholders may complete four (4) 1-hour risk management CME courses to be eligible for a maximum of 6% premium discount per policy period.

CME Reporting Simplified!

TMA is taking care of your TexMed CME credit tracking for you.

To ensure you receive accurate credit, please:

- 1 **Wear your conference badge at all times.**
- 2 **Have your badge scanned as you enter each CME session.**
- 3 **If you attend multiple sessions in the same room, have your badge re-scanned before each session begins.**
- 4 **TMA will record your CME credit by May 18.**

All credit types will be recorded as part of this scanning (ethics, SUD, etc.).

PLEASE NOTE: Self-reporting is still required for other TMA CME events.

FRIDAY, APRIL 17 | 7:45 AM | HOD

An Astronaut's Perspective: Space Medicine and Beyond

*Sponsored by TMA Foundation Louis J. Goodman
Lectureship in Leadership Medicine Fund*

BERNARD A. HARRIS JR., MD
NASA ASTRONAUT AND 40-YEAR TMA MEMBER

Dr. Harris has journeyed from the exam room to outer space – and beyond. An internist, philanthropist, and CEO of Vesalius Ventures, he now champions innovation “dedicated to accelerating the future of medicine.”

Dr. Harris was inducted into the U.S. Astronaut Hall of Fame in June 2025.

In this presentation, Dr. Harris draws on his experience as both a physician and astronaut to explore how medicine has adapted to the demands of human spaceflight. As missions extend beyond Earth, space medicine has emerged as a specialized field dedicated to protecting astronaut health, safety, and performance in the extreme conditions of space.

Objectives:

- Describe the physiological/psychological impacts (microgravity, radiation, isolation) and how it impacts human health and performance.
- Discuss the development of preventative care, treatments, and countermeasures to ensure mission success and long-term space habitation.
- Examine the impact of humans in space and the implications for the future of medicine.

FRIDAY, APRIL 17 10-11 AM

Art as Medicine: Creative Solutions for Physician Wellness and Resilience

Nellie Moualeu, PhD; Jennifer Nordhauser, MD; Juan Sosa, MD; Randi Stouffer, PharmD

E WF | 1st Floor, C106

Upon completion the participant should be able to:

- Identify evidence-based art and creative practices associated with reducing physician burnout, moral injury, and emotional exhaustion.
- Describe the mechanisms by which creative engagement supports emotional regulation, reflective capacity, resilience, and professional meaning in medical practice.
- Apply practical, time-efficient creative strategies to develop a brief, actionable plan for integrating art-based wellness practices into daily routines, clinical environments, or institutional well-being programs.

Reimagining Maternal Health: Practical Strategies for Equitable and Respectful Care

Emily Briggs, MD; Kristin Bennett, DrPH; Brittany Ikwuagwu, MD; Stephanie Sword

Sponsored by the Committee on Reproductive, Women's, and Perinatal Health

TMLT PH | 1st Floor, C101

Upon completion the participant should be able to:

- Describe how to embed health equity, cultural humility, and patient-centered care into maternal health practices.
- Discuss how physicians can partner with patients and community stakeholders to integrate cultural humility and patient-centered practices.
- Identify strategies for engaging in culturally appropriate patient interactions and ensuring unbiased documentation in medical records.

Science of Recharging

Rajani Katta, MD

Presented by the Committee on Physician Health and Wellness

TMLT E WF | 1st Floor, C107

Upon completion the participant should be able to:

- Describe the cognitive, emotional, and environmental factors that contribute to physician energy depletion, including digital overload and workplace incivility.

CME PROGRAMMING KEY

BM	Business of Medicine
LD	Leadership
PH	Public and Population Health
WF	Wellness First
ST	Specialty Trends
E	Ethics
DEA SUD	DEA Mandated Training
TMLT	TMLT Discount

CME sponsored by TMF Health Quality Institute

- Identify evidence-based characteristics of effective extended breaks and microbreaks and explain how these strategies support cognitive focus, emotional regulation, and recovery.
- Apply proactive and reactive energy-management strategies by personalizing relaxation activities and mastery experiences to enhance cognitive and emotional energy reserves in clinical practice.

TELEMEDICINE: Broad Vision Solution for the Future

Luissa Kiprono, DO, MBS, MBA

BM | 1st Floor, C105

Upon completion the participant should be able to:

- Differentiate between various telehealth delivery systems to determine the most effective modality for addressing fragmented care and subspecialty access gaps.
- Integrate virtual connectivity and real-time collaboration tools into existing workflows to bridge geographic barriers for rural and underserved populations.
- Develop clinical outcomes and care quality metrics to ensure telemedicine delivery provides equitable, patient-centered care comparable to traditional in-person systems.

When Teamwork Turns Toxic: Navigating Dark Triad Personalities in Medicine

Joy Chen, MD, FASA, FCCM

LD | 1st Floor, C104

Upon completion the participant should be able to:

- Identify the core traits of the Dark Triad (narcissism, Machiavellianism, and psychopathy) and

10-11 AM (CONT.)

recognize how these traits manifest in medical and perioperative teams.

- Analyze how Dark Triad behaviors erode psychological safety, impair teamwork, and increase risks to clinician well-being and patient safety.
- Apply evidence-informed strategies to recognize, mitigate, and respond to toxic behaviors at both the individual and organizational levels.

12:30-1:30 PM

Hashimoto's Disease: The Diagnosis is Just the Beginning

Dana Gibbs Clark, MD

PH | 1st Floor, C104

Upon completion the participant should be able to:

- Assess thyroid antibody results and advanced hormone markers – including Total T3, Free T3, and Reverse T3 – to assess cellular-level thyroid function beyond standard Thyroid Stimulating Hormone (TSH) monitoring.
- Define a patient-centered framework for thyroid hormone adjustment, including the identification of appropriate candidates for combination T4/T3 therapy, to resolve persistent symptoms in patients with “normal” TSH levels.
- Utilize lifestyle-based interventions and nutritional strategies alongside pharmaceutical treatments to slow autoimmune destruction and address the physiological drivers of metabolic slowdown.

Life of the Mother Act: What Texas Physicians Need to Know for Managing Pregnancy Emergencies

Charles E. L. Brown, MD, MBA; Lauren Fine, MD

LOMA TMLT ST | 1st Floor, C101

Upon completion the participant should be able to:

- Understand what does and does not constitute an abortion under state law.
- Describe the medical emergency exception to the abortion ban and understand how to apply it.
- Explain the state standard of reasonable medical judgment and how it applies to clinical decision-making.
- Appropriately apply state abortion laws to relevant clinical scenarios.

12:30-1:30 PM (CONT.)

Physician Transitions: How to Retire to “Something” and Optimize Well-Being

Toi Harris, MD; Sheila LoboPrabhu, MD; James Lomax, MD; Mary Brandt, MD;

Presented by the Committee on Physician Health and Wellness

E WF | 1st Floor, C106

Upon completion the participant should be able to:

- Describe the current demographic trends and professional characteristics of the aging physician workforce in the United States.
- Discuss the multifaceted personal, professional, and psychosocial impacts of retirement on physician well-being, including shifts in identity, stressors, and purpose.
- Apply evidence-informed strategies to optimize physician wellbeing during the transition into retirement by supporting health, relationships, and purposeful engagement.

The Intersection of Cannabis and Medicine

Matt Poling, MD

WF | 1st Floor, C105

Upon completion the participant should be able to:

- Differentiate between FDA-approved cannabinoids, Texas Compassionate Use Program (CUP) regulations, and unregulated retail THC isomers to provide accurate patient counseling.
- Analyze the latest clinical evidence regarding the adverse mental and physical effects of cannabis, including specific risks for addiction, psychiatric disorders, and cardiovascular complications.
- Integrate a risk-based assessment into clinical practice to identify patients at higher risk for cannabis-related harms, such as those with pre-existing psychiatric conditions or cardiovascular disease.

1:45-2:45 PM

Ethical Considerations and Best Practices for Physicians Providing Mental Health Care via Telehealth

Alcides Amador, MD; Cristel Escalona, MD; Sason Tavakoli-Sabour, DO

E PH | 1st Floor, C106

Upon completion the participant should be able to:

1:45-2:45 PM (CONT.)

- Identify key ethical principles involved in providing mental health care via telehealth, including confidentiality, informed consent, competence, nonmaleficence, and professional boundaries.
- Apply regulatory requirements and evidence-based best practices for assessing, diagnosing, and managing mental health conditions in a virtual primary care setting.
- Develop strategies to address challenges such as emergency situations and maintaining continuity of care when delivering mental health care services via telehealth.

Find Your Leverage and Negotiate with Power

Amanda Hill, JD

LD | 1st Floor, C105

Upon completion the participant should be able to:

- Analyze internal and external factors to identify personal and professional leverage that can be utilized during contract negotiations or career transitions.
- Develop mindset-reset techniques and “walk-away” strategies to manage psychological pressures and financial attachments during high-stakes negotiations.
- Assess creative positioning and self-marketing strategies to negotiate for non-traditional benefits that preserve time, autonomy, and professional fulfillment.

Improving Maternal and Infant Health: It's on All of Us

Kathy Zhang-Rutledge, MD

PH | 1st Floor, C104

Upon completion the participant should be able to:

- Integrate preconception optimization goals for hypertension, diabetes, and obesity into primary care visits to improve obstetrical outcomes for high-risk populations.
- Assess how to adjust clinical management plans for medically complex patients by accounting for how pregnancy-induced physiological changes accelerate or alter specific disease states.
- Develop long-term follow-up protocols for patients with history of pre-eclampsia or gestational diabetes to manage their elevated risk for chronic cardiovascular and metabolic conditions.

Navigating Ethics in a Changing Landscape: Recent Legislation Impacts End-of-Life and OB/GYN Care - The George R. Hugman, III, MD, Ethics Forum

Kyle Krohn, MD, Moderator; Mark Casanova, MD, FACP, FAAHPM; Deborah Fuller, MD, FACOG; Lisa Kaufman, JD; Cesar J. Lopez, JD

Presented by the TMA Board of Councilors

TMLT E PH | 1st Floor, C101

Upon completion the participant should be able to:

- Describe recent legislative changes affecting end-of-life care and obstetric/gynecological care and identify areas where these laws intersect with ethical challenges in clinical practice.
- Analyze the ethical dilemmas that arise when legal requirements conflict with established standards of care, patient autonomy, and professional integrity.
- Discuss the implications of legislative restrictions on certain medical education and training, particularly regarding the preparation of trainees to navigate ethically and legally complex situations.

Why Improving Access to Mental Health Care is an Ethical Imperative

Fernando Doval Perez, DO

E PH | 1st Floor, C107

Upon completion the participant should be able to:

- Describe the prevalence and clinical impact of mental health conditions and substance use disorders among youth and peripartum women, including the consequences of delayed or untreated care.
- Discuss how psychiatric access programs – such as Texas' CPAN and PeriPAN initiatives – address barriers to mental health assessment and treatment and align with the ethical principles of beneficence, nonmaleficence, and justice.
- Apply practical strategies to identify mental health access barriers within one's clinical setting and integrate psychiatric access programs into practice to improve timely, equitable patient care.

3:30-4:30 PM

Beyond Burnout: Cultivating Emotional Strength and Well-Being**Russell Kohl, MD, FAAFP; Wendy Bradley, LPC-MHSP, CAADC***Sponsored by TMF Health Quality Institute***TMLT E WF | 1st Floor, C106**

Upon completion the participant should be able to:

- Differentiate between burnout, compassion fatigue, and vicarious trauma to proactively identify and manage early warning signs.
- Integrate evidence-based emotional wellness strategies, such as mindfulness techniques, emotional awareness, and supportive boundaries into daily clinical practice.
- Discuss organizational and individual approaches for creating sustainable work environments that prioritize clinician well-being, peer support networks and quality of care.

Designing Health Care that Cares: A Leadership Compass for Building Thriving Teams and High-Performing Organizations**Laura Suttin, MD, MBA, PCC****LD | 1st Floor, C107**

Upon completion the participant should be able to:

- Analyze the causal relationship between clinician well-being and key performance indicators, including clinical outcomes, patient safety, workforce retention, and organizational profitability.
- Utilize a systemic leadership framework (Purpose, Connection, Empowerment, and Joy) to diagnose cultural breakdowns and identify administrative bottlenecks within health care teams.
- Implement leadership practices designed to increase psychological safety, fostering shared ownership and improved team performance.

Physicians and Relationships: No it's Not too Late**Toi Harris, MD; Shelia LoboPrabhu, MD; Gary Sheppard, MD; Kendra Harvey***Presented by the Committee on Physician Health and Wellness***TMLT E WF | 1st Floor, C101**

Upon completion the participant should be able to:

- Describe the relationship between physician well-being and relationship quality, including the effects of burnout on physicians, spouses, and family systems.

- Identify key occupational and personal stressors associated with physician burnout and explain how these stressors influence family functioning, emotional health, and secondary trauma.
- Apply practical strategies addressing physical, emotional, and spiritual balance to strengthen relationships and promote resilience across the physician life cycle.

The Immunization Conundrum**Gilbert Handal, MD****E PH | 1st Floor, C105**

Upon completion the participant should be able to:

- Describe the historical evolution and current epidemiology of Hepatitis B in the United States and globally, including the impact of immunization efforts.
- Discuss current World Health Organization (WHO) and U.S. policies for Hepatitis B control and potential eradication, including key controversies related to proposed policy changes and their potential implications.
- Identify evidence-based strategies to prevent Hepatitis B transmission by reinforcing newborn immunization and maternal screening practices and recognizing the need for enhanced immunization and targeted interventions in high-risk populations.

Under the Hood of Your EHR: Is it on FHIR?**Fredric Santiago, MD, MBA****BM | 1st Floor, C104**

Upon completion the participant should be able to:

- Describe the core features of the Fast Healthcare Interoperability Resources (FHIR) standard to identify how it mitigates EMR data overload and fragmented information exchange.
- Discuss ways to integrate FHIR-enabled decision-support tools and automated workflows into clinical practice to streamline prior authorizations and reduce administrative documentation burdens.
- Assess interdisciplinary implementation strategies by defining the clinical roles and responsibilities necessary to leverage FHIR for improved care team collaboration and real-time data access.

CME AT A GLANCE

EXPO

BUSINESS

SATURDAY, APRIL 18

8:30-9:30 AM

Physician Mental Health and Substance Abuse Issues: Alternatives to Traditional Discipline When Your License is at Risk

Tony Bertolino, JD; Troy Beaulieu, JD

TMLT E PH | 1st Floor, C101

Upon completion the participant should be able to:

- Describe the professional and legal obligations of Texas Medical Board and Texas Board of Nursing license holders when mental health or substance use issues affect their own practice or that of a colleague.
- Define the role, structure, and services of the Texas Physician Health Program and the Texas Peer Assistance Program for Nurses, including how these programs function as alternatives to traditional disciplinary action.
- Apply appropriate steps and resources to protect a professional license and support colleagues facing mental health or substance use challenges while maintaining patient safety and regulatory compliance.

More than Survival: Aligning Trauma Care with Goals in Older Adults

Michael Boyars, MD; Linda Pang, MD

Presented by the Texas Geriatric Society

ST | 1st Floor, C105

Upon completion the participant should be able to:

- Identify key clinical, functional, and psychosocial factors unique to geriatric trauma patients that influence early palliative care needs.
- Apply a multidisciplinary approach to integrating palliative principles into acute trauma workflows to improve communication, shared decision-making, and goal-concordant care.
- Integrate geriatric and palliative care principles into acute trauma workflows by identifying high-yield interventions for symptom management, family engagement, and realistic discharge planning.

RVUs to Reality: Decoding the CMS Physician Fee Schedule and its Impact on Practice Revenue

Kinal Mahesh Patel, JD

BM | 1st Floor, C102

Upon completion the participant should be able to:

- Explain the core components of the CMS Physician

CME PROGRAMMING KEY

BM	Business of Medicine
LD	Leadership
PH	Public and Population Health
WF	Wellness First
ST	Specialty Trends
E	Ethics
DEA SUD	DEA Mandated Training
TMLT	TMLT Discount

Fee Schedule, including Relative Value Units (RVUs), conversion factors, and geographic practice cost indices, and describe how these elements are used to calculate Medicare physician reimbursement.

- Identify recent updates to the CMS Physician Fee Schedule and changes to Medicare payment policies, and summarize their potential effects on reimbursement rates, quality-based incentives, and reporting requirements.
- Analyze how Medicare Physician Fee Schedule rates function as benchmarks for Medicare Advantage and commercial payer contracts, and apply this understanding to support contract negotiations and practice financial planning.

10:15-11:15 AM

Advancing Age-Friendly Care: Understanding the new CMS Measure for Hospitals

Cristina Murdock, MD

Presented by the Texas Geriatric Society

ST | 1st Floor, C105

Upon completion the participant should be able to:

- Analyze the core components of the CMS Age-Friendly Structural Measure to ensure hospital compliance and structural accountability in the care of older adults.
- Describe the “4Ms” framework (What Matters, Medication, Mentation, and Mobility) into clinical workflows and electronic medical record documentation to standardize patient-centered outcomes.
- Discuss interdisciplinary strategies, including frailty screenings and polypharmacy referral protocols, to reduce adverse events and meet federal age-friendly reporting requirements.

10:15-11:15 AM (CONT.)

AI in Medicine 2026: Practical, Safe, and Transformative Uses for Everyday Practice**Cristel Escalona, MD; Sejal Mehta, MD***Presented by the Committee on Physician Health and Wellness***TMLT E WF | 1st Floor, C102**

Upon completion the participant should be able to:

- Describe current and emerging clinical applications of artificial intelligence in everyday medical practice, including potential benefits, limitations, and risks.
- Assess AI tools for accuracy, safety, workflow impact, and ethical and medico-legal considerations using a structured, evidence-based assessment framework.
- Apply practical strategies to implement AI appropriately in clinical workflows — improving documentation efficiency and reducing physician workload — while distinguishing use cases that require independent physician judgment.

The Dual Dividend: Ultrasound for Better Care and Better Business**Christine Whitelaw, MD****BM | 1st Floor, C104**

Upon completion the participant should be able to:

- Discuss the integration of point-of-care ultrasound (POCUS) into the traditional physical examination to achieve rapid diagnostic certainty and improve real-time clinical decision-making in the outpatient setting.
- Apply standardized billing and coding protocols for bedside imaging to establish a sustainable, high-margin revenue stream while maintaining regulatory compliance.
- Develop a practice-wide implementation plan that includes equipment selection, staff training, and optimized workflows to reduce external imaging referrals and enhance patient satisfaction.

The Whole Blood Revolution: Bridging the Gap from Prehospital to Trauma Center – Lessons Learned from the Rio Grande Valley**Carlos Palacio, MD; Nathan Ramon, MPA****PH | 1st Floor, C101**

Upon completion the participant should be able to:

- Analyze the physiologic benefits of low-titer group O whole blood (LTOWB) versus traditional component therapy to optimize hemostatic effectiveness in

patients with hemorrhagic shock.

- Integrate LTOWB into massive transfusion protocols and trauma resuscitation workflows by identifying clinical scenarios where early administration improves patient outcomes.
- Define standardized protocols for the storage, handling, and administration of whole blood, including the interpretation of titer thresholds and Rh considerations for specific patient populations.

11:30 AM-12:30 PM

AI Assistants: Practical Uses for Clinic Operations and Personal Productivity**Jawahar Jagarapu, MD, MS; Joseph Schneider, MD****TMLT BM | 1st Floor, C102**

Upon completion the participant should be able to:

- Describe the role of AI assistants as “digital staff” and identify practical, non-clinical use cases for clinic operations, including HR policy navigation, staff onboarding, training, and internal knowledge management.
- Apply AI tools such as Microsoft 365 Copilot, Custom GPTs, and NotebookLM to streamline administrative workflows and personal life management tasks while maintaining appropriate human oversight.
- Assess non-clinical AI use cases for safety, privacy, professionalism, and accountability to ensure responsible adoption that reduces cognitive burden and supports clinician well-being.

Beyond Resilience: Reflective Dialogue and Creative Expression to Address Physician Burnout**Michael Boyars, MD****TMLT E WF | 1st Floor, C104**

Upon completion the participant should be able to:

- Differentiate between individual resilience models and collective reflective practices, such as Schwartz Rounds and Code Lilac, to address systemic drivers of burnout and moral distress.
- Utilize facilitated storytelling and narrative medicine techniques to foster empathy, professional connection, and shared meaning-making within clinical teams.
- Design a strategy for integrating structured reflective dialogue into busy clinical or educational workflows to create psychologically safe spaces for processing the emotional impact of practicing medicine.

11:30 AM-12:30 PM (CONT.)

Breaking the Cycle: Osteoporosis and Fracture Prevention

Ezenwa Onyema, MD; Chidinma Aniemekwe, MD

Presented by the Texas Geriatric Society

ST | 1st Floor, C105

Upon completion the participant should be able to:

- Apply current screening and diagnostic guidelines to stratify fracture risk and identify high-risk patients within aging populations.
- Develop a multidisciplinary care plan incorporating pharmacologic and non-pharmacologic interventions, specifically utilizing the Geriatric 5Ms framework, to prevent secondary fractures.
- Implement structured care pathways, such as Fracture Liaison Services (FLS) or EMR optimizations, to coordinate transitions of care and reduce health disparities in underserved communities.

Navigating Opioid Tapering and Cannabis Use

Mitchell Engle, MD, PhD; Michael Sprintz, DO

Presented by the Texas Pain Society

DEA SUD ST | 1st Floor, C101

Upon completion the participant should be able to:

- Identify appropriate primary care patients for opioid tapering by assessing clinical indications, patient-specific risk factors, and scenarios requiring safe opioid dose reduction.
- Implement evidence-based, patient-centered opioid tapering plans, including stepwise dose reductions, monitoring for withdrawal symptoms or complications, and recognizing warning signs that necessitate closer monitoring or intervention.
- Assess the impact of THC/cannabis use on chronic pain management and opioid tapering, and incorporate standard-of-care monitoring and counseling considerations into clinical practice.

EXPO HALL HIGHLIGHTS

The Expo Hall is your location for the latest technologies, services, and product knowledge to enhance your quality of patient care and practice operations ... all from solutions-based exhibitors. Take a break and get recharged!

Thanks to our exhibitors and sponsors, TexMed is a free member benefit.

EXPO HALL HOURS

Friday: 7 am-7 pm

Saturday: 7 am-1:30 pm

WELCOME STATION AND SATURDAY BAGGAGE CHECK

Have questions about the conference? Stop here for answers and to pick up your TexMed essentials – lanyard, ribbons, printed program, and tote bag. Be sure to visit on Saturday morning to drop your luggage at our **complimentary baggage check**, available 6 am-2 pm.

PHYSICIAN LOUNGE

Sponsored by Humana

At the heart of the Expo Hall, the Physician Lounge is your stop to refresh, recharge, and reconnect with colleagues.

TEXMED TIKI HUT AND BINGO DROP

BOOTH #806

Sponsored by TMA Insurance Trust

Take a break from the serious stuff and visit the TexMed Tiki Hut for refreshing shaved ice. Expo Bingo winners will be posted here, so stop by often to see if you're a winner.

TECH VILLAGE

NEW IN THE EXPO HALL!

Discover the future of health care at TexMed 2026's Tech Village! Visit industry experts at interactive digital kiosks and relax in our lounge during coffee-fueled Tech Talks – dynamic sessions on today's hottest health IT services. Presented by the TMA Health Information Technology Council, the Tech Village is a crowd favorite you won't want to miss.

COFFEE BREAK

TECH VILLAGE

Friday, 9:30-10 am, 2:45-3:30 pm

Saturday, 9:30-10:15 am

WALK WITH A DOC

BOOTH #517 | Friday, 7-7:30 am

Join us Friday morning! Meet at the Omni Hotel lobby for a walk along the coast to the Hilliard Center for breakfast in the Expo Hall.

NETWORKING LUNCH

Friday, 11:15 am-12:30 pm

Meet with friends, chat with exhibitors, visit the TMA Member Services booth and grab a bite. Prize drawings and more will be happening.

ASK-THE-EXPERT PANEL: FINANCIAL WELLNESS

Presented by M.C. Byrd Wealth Management

HOD | Friday, 11:30 am-12:15 pm

Join us for a lunchtime Ask-the-Expert panel discussion in the HOD room. Enjoy your meal while gaining insights from financial experts moderated by Rodney Young, MD.

COASTAL KICK-OFF

WELCOME RECEPTION

Sponsored by Texas Medical Liability Trust

EXPO HALL | Friday, 4:30-7:30 pm

Don't miss the Corpus Coastal Kickoff! Celebrate the TMA and TMAA presidents with drinks, delicious eats, and lively entertainment from a beachy band and surprise performers. Connect with colleagues and exhibitors in a festive coastal setting – all indoors in the Expo Hall.

RELAXATION STATION

BOOTH #406

Escape the hustle and bustle of the conference at the Relaxation Station. Enjoy a chair massage or sit, relax, and recharge.

EXPO BINGO

Grab your Expo Bingo card, visit all participating exhibitors listed, and enter to win one of several fabulous prizes donated by the Expo Bingo exhibitors. Winners will be posted in the TexMed Tiki Hut. For a schedule of prize drawings, *see page 39*.

SATURDAY SEND-OFF LUNCH

EXPO HALL | Saturday, 12:30-1:30 pm

You'll have a "blast" at the Saturday Send-Off Lunch as we wrap up TexMed 2026! Enjoy lunch, lively entertainment, and the big reveal of our 2027 conference destination. Don't miss this festive finale!

GO TEAM THERAPY DOGS

BOOTH #608

Sponsored by Healthconnect Texas

Love on the adorable dogs from Go Team Therapy Dogs of Corpus, a nonprofit service organization providing animal-assisted therapy programs for the Corpus area.

Physicians Caring for Texans

To learn more, visit
[texmed.org/TMALC](https://www.texmed.org/TMALC)

@texmed @wearetma

Texas Medical Liability Trust is a generous Pinnacle Sponsor of TMA's leadership development programs.

HOUSE OF DELEGATES

TMA's House of Delegates (HOD) is the association's top legislative and policymaking body. It represents individual grassroots members, county and specialty medical societies, boards, councils, committees, and sections. All TMA members are encouraged to appear and testify before reference committees and attend meetings of the house. *However, only delegates and alternate delegates may participate in the discussion, and only delegates may vote in Saturday's session.*

TEXMED and House of Delegates Joint Opening Session

Friday, 7:45-11:15 am (or until house recess)
Hilliard Center, 1st Floor HOD

Presiding: Speaker John G. Flores, MD, Little Elm, and Vice Speaker Mark A. Casanova, MD, Dallas

HOUSE AGENDA

- Opening Session Speaker: Bernard A. Harris Jr., MD
- TMA president address to the house
- Nominations for candidates for TMA offices
- Presentation of Distinguished Service Award

REFERENCE COMMITTEES

Friday, 12:00 pm
Hilliard Center, 2nd Floor Henry Garrett Rooms A-D

Four reference committees hold open hearings to consider the issues listed below. Follow the progress of each reference committee on your mobile device at refcom.texmed.org.

Financial and Organizational Affairs

Henry Garrett C

Association finances, membership, representation, and federation relationships

Medical Education and Health Care Quality

Henry Garrett D

Undergraduate, graduate, and continuing education; physician workforce; scientific/clinical aspects of medicine; biomedical research; medicine and technology; and health care quality

Science and Public Health

Henry Garrett B

Core public health functions; environmental health; child and adolescent health; EMS and trauma; addictive and infectious diseases; and regulations and licensure

Socioeconomics

Henry Garrett A

Managed care; Medicare/Medicaid; payment; and legislative, regulatory, and legal issues

CANDIDATE FORUM

Friday, 3-4:30 pm | Hilliard Center, 1st Floor HOD

Candidates running for at-large trustee to the TMA Board of Trustees and candidates running for the resident/fellow and medical student designated alternate delegate positions to the Texas Delegation to the American Medical Association (AMA) speak briefly, then answer questions. Any member who attends will be entered into a drawing for an Amazon gift card – must be present to win!

HOUSE BUSINESS SESSION

Saturday, 8:30 am-12:30 pm
Hilliard Center, 1st Floor HOD

Presiding: Speaker John G. Flores, MD, Little Elm, and Vice Speaker Mark A. Casanova, MD, Dallas

HOUSE AGENDA

- Debate and voting
- TMA elections for officers, councilors, and AMA delegation (9:30 am)
- 2026-27 TMA president installation (10:45 am)
- TMAA/TMA presidents' address to the HOD

CAUCUS MEETINGS

County medical society caucus meetings are scheduled for Saturday morning. For more information, refer to "Caucuses" in the Business Meetings schedule (page 51).

Going beyond expectations at every turn

At Humana, what we do is more than health insurance. It's human care—care that works harder, goes further and digs deeper. Doing more for our members is always better in the long run.

Humana® A more human way to healthcare.®

Proud Supporter of TexMed

BUSINESS MEETINGS

Many TMA boards, councils, and committees hold business meetings in conjunction with TexMed. Please note that while the meetings are open to TMA members, at the discretion of the chair, additional TMA members and guests may be invited to attend.

If you are not a member of a group and would like to attend its meeting, please ensure you have spoken with the appropriate chair or staff to confirm participation when applicable. Visit texmed.org/BCCInfo for complete details.

One platform, total CME compliance.

**Effortlessly manage your courses
and board reporting in a few clicks.**

Official Texas Medical Board partner

The Texas Medical Board has partnered with Propelus CE Broker®, an online continuing education compliance platform, to ensure all Texas Medical Board (TMB) licensees can meet the state's statutory continuing education reporting requirements, Mandatory CME reporting for the renewal of licenses begins September 1, 2026.

Easy-to-use platform

Easily understand your specific CME requirements and compliance status with a quick glance at what's needed or outstanding.

Your all-in-one resource

With Propelus CE Broker, you can conveniently manage your CME compliance and store all of your credentials and certifications in one secure place.

Clinician Burnout Isn't the Problem. It's the Warning Sign.

You trained for years to do meaningful work. But somewhere between the EMR, the metrics, and the meetings, medicine stopped feeling like yours.

Laura Suttin, MD, MBA, PCC is a board-certified family physician, speaker, consultant, and executive coach who helps clinicians rediscover purpose — and helps healthcare organizations build structures where great physicians actually stay.

Congratulations! YOU MADE IT!

If you're staying in Texas for residency,* the Texas Medical Association and your county medical society are here to guide you through every stage of your career.

- ✓ Leadership and professional development
- ✓ Business of medicine seminars (for topics not taught in residency or medical school)
- ✓ Health and wellness resources
- ✓ Online education, podcasts, and more

Learn more at texmed.org/Residents.

Make sure you're connected!

Update your contact information at texmed.org/Profile.

**If not, we hope you'll return after residency. Ask about leave-of-absence membership to stay in touch with TMA.*

Rural Health Net™

Join a Provider Discount Network Built for Simplicity

Participate in a structured discount health care program without insurance billing or claims.

What Is Rural Health Net?

Rural Health Net operates as a Discount Health Care Program, connecting providers with members seeking direct-pay, discounted health care services.

This is **not insurance**.

Why Providers Participate

- ▶ Visibility through provider directory
- ▶ Set your discounted service rates
- ▶ Schedule member appointments
- ▶ Collect payment at time of service
- ▶ Safe Harbor for cash-pay

Learn More ▶ www.ruralhealthnet.com | info@ruralhealthnet.com

Rural Health Net is not insurance and does not pay providers. Participation is voluntary. Discounts and services vary by provider.

TEXAS MEDICAL ASSOCIATION

Distinguished SERVICE AWARD

The Distinguished Service Award is the Texas Medical Association's highest honor, recognizing a person who has made outstanding contributions to Texas patients and physicians.

JOHN W. HELLERSTEDT, MD

The Texas Medical Association is proud to honor John W. Hellerstedt, MD, with the 2026 TMA Distinguished Service Award in recognition of his 45 years of exemplary service to patients, public health, and organized medicine.

TMA will recognize Dr. Hellerstedt with the association's highest honor during the TexMed Opening Session on Friday morning.

Throughout a career spanning several medical leadership roles, Dr. Hellerstedt is perhaps best known for his tenure as commissioner of the Texas Department of State Health Services during the COVID-19 pandemic. As Texas' chief public health officer, he steered the state's health system through this tumultuous period as director of the Governor's Infectious Disease Task Force, working closely with TMA and other health care organizations to keep physicians, institutions, and the public up to date with information and resources.

The pediatrician has long been a vocal champion at the state and federal level for vaccination, touting the benefits of one of medicine's best disease-prevention measures.

In addition to having led one of Texas' largest state agencies during an historic period, Dr. Hellerstedt has been a longtime member of TMA, the Travis County Medical Society, and the Texas Pediatric Society. In every role, he has embodied service as a physician, educator, and leader in organized medicine.

He serves as an adjunct clinical professor for Texas A&M University Naresh K. Vashisht College of Medicine. Dr. Hellerstedt was also the first medical director for Texas Medicaid/CHIP, implemented the first office of medical technology at the Texas Health and Human Services Commission, was vice president of medical affairs for Dell Children's Medical Center of Central Texas, and served as chief medical officer for Seton Hospitals in Austin. His roots in medicine date back to treating young patients in his first pediatric practice, starting in 1981.

TMA is pleased to celebrate Dr. Hellerstedt for a career marked by service to his community, his state, his colleagues – and his patients.
