

Ask Congress to Keep Doctors for Medicare Patients

Dear Patient,

For a Medicare patient, a doctor can mean everything: independence, hope, and security. Medicare makes it possible. For a doctor, treating our patients is everything. We know many of your children and grandchildren — our patients are family. The last thing we want to do is tell our patients that we can no longer care for them. I want to continue taking care of my Medicare patients — that's why I became a doctor.

The new health care law did not fix a 10-year problem in Medicare — the government's largest health care program. Medicare uses a flawed formula to pay physicians for taking care of seniors, military families, and persons with disabilities. On Dec. 1, physicians' payments are scheduled to be cut 25 percent.

Congress must stop the cut and fix the flawed payment formula so you can have the doctors you need when you're sick. You deserve to receive the care you've been promised by the government.

Act now to save Medicare.
Call your U.S. senators and representative today.
Call (202) 224-3121

Tell your senators and representative it's time to fix Medicare for good.
