

Core Set: Measure 3

Objective

Generate and transmit permissible prescriptions electronically (eRX)

Measure

More than 40% of all permissible prescriptions are transmitted electronically using certified EHR technology

NextGen Products to Help Demonstrate Meaningful Use
NextGen Ambulatory EHR 5.6 SP1
NextGen E-Prescribing Enabled

Prescriptions can be e-Prescribed in NextGen’s Medication Module. A provider can also use a “Favorites” list for a common drug/dosage that they prescribe.

- Crystal reports will pull all non-narcotic medications e-prescribed for patients seen in the past year for the numerator and all non-narcotic medications prescribed for patients seen in the past year for the denominator.

Synthroid 100 mcg Tab Send selected prescription(s) electronically or by fax

Sig: Take one tablet by mouth daily Remove Sig
