

## Menu Set: Measure 7

### Objective

Perform medication reconciliation for a patient from another care setting or provider of care

### Measure

Perform medication reconciliation form more than 50% of transitions of care in which the patient is transition in the care of the EP

*NextGen Products to Help Demonstrate Meaningful Use*  
**NextGen Ambulatory EHR 5.6 SP1**  
**KBM Version 7.6 or later (with all service packs)**  
**NextGen E-Prescribing enabled**

The crystal report will record as the numerator whether the medication reconciliation/review was documented on either the home page or the nursing intake. The denominator will be whenever you document a transition of care or if the patient has not been seen for more than a year.
