

Use CPOE

Objective - Use CPOE (Computerized Physician Order Entry) for medication orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.

Measure - **More than 30%** of all unique patients with at least one medication in their medication list seen by the EP have at least one medication entered using CPOE.

'How To' in PrimeSUITE 2011 – This functionality is met by utilizing **PrimeSUITE 2011** Prescription Writer. Meeting this objective in **PrimeSUITE 2011** can be accomplished in 2 ways – from the Medication List on the Facesheet, or from within the Plan section of a note.

The screenshot shows a 'Medication List' window with the following details:
