

Medication-Allergy List

Objective - Maintain an up-to-date medication allergy list. Note that only medication allergies are required to be recorded – Environmental and Food allergies are not required to meet Meaningful Use criteria.

Measure - **More than 80%** of all unique patients seen by the EP have at least one entry (or an indication that the patient has no known medication allergies) recorded as structured data.

'How To' in PrimeSUITE 2011 - Medication allergies are recorded on the Facesheet under Allergies.
