

(2)(i) Objective. Incorporate clinical lab-test results into EHR as structured data.

(ii) Measure. At least 50 percent of all clinical lab tests results ordered by the EP or authorized provider of the hospital during the EHR reporting period whose results are either in a positive/negative or numerical format are incorporated in certified EHR technology as structured data.

The screenshot shows a software interface for viewing lab results. At the top, there is a 'View' dropdown menu set to '<Attached - Metabolic Panel>' and a 'Set' button. Below this is a table with columns for 'Days' and '05/03/2005'. The table lists various lab tests and their corresponding numerical values.
