There are 4 types of programs offered through NRMP, see definitions below. All positions must now be a part of the match program.

Program Type	# Offered	# Filled	% of State Total Filled	# Programs
Advanced Programs (A)	158	154	97%	37
Categorical Programs (C)	1363	1340	98%	168
Preliminary Programs (P)	205	163	80%	36
State Total Excluding (R) Programs	1726	1657	96%	242
Reserved Programs (R)	31	21	68%	15
State Total	1757	1678	96%	257

Program Category Definitions:

"C" = Categorical positions; residents are expected to complete the training required for certification in this specialty.

"P" = Preliminary positions are for one or two years of training as prerequisite for advanced positions in specialty programs that require one or more years of broad clinical training.

"A" = Advanced positions (beginning in 2014) are positions that begin AFTER completion of one or more years of preliminary training. Applicants can apply for preliminary positions (to start in 2013) and advanced positions (to start thereafter in 2014). All "A" positions are PGY-2 slots.

"R" = Reserved for physicians with prior graduate training. These positions are PGY-2 positions starting in the year of the Match and are not available to U.S. senior medical students.

2013 NRMP Results for Texas, Ranked by # of Offered Positions, by County

Grand Total	1757	100%	1678	96%	257	100%

Notes: The 2013 Match was the first to utilize NRMP's "All-In" policy, which requires participating programs to register and attempt to fill all their positions through The Match. Positions can no longer be filled outside The Match. Due to this change, the 2013 Match results cannot accurately be compared with prior matches.

The San Francisco Matching Program coordinates matches for neurotology, ophthalmology & most plastic surgery residencies and American Urological Association coordinates matches for urology residencies.

Four positions offered in the 2013 Match, specifically dedicated to the Saudi Arabian Cultural Mission (SACM), were excluded from report tabulations. These positions were not available to other physicians. SACM is a Saudi government agency created to administer programs and policies to meet the educational and cultural needs of Saudis studying in the U.S. and provides opportunities for medical student/resident exchange programs and practice positions for doctors.

Percentages have been rounded.
