

Physicians Caring for Texans

## TEXAS MEDICAL ASSOCIATION JOB DESCRIPTION

**DEPARTMENT**      Software Development

**TITLE**                C# Software Developer

**SUPERVISOR**      Director, Software Development

### **BASIC FUNCTION**

You will be required to analyze, design, develop, test, debug and support new and existing applications and services, for the benefit of members and employees of TMA and the entities it works with. You should have initiative and creativity; be able to demonstrate strong attention to detail and have a high level of technical aptitude and work to a schedule to deliver high quality results.

### **MAJOR RESPONSIBILITIES/TASKS**

1. Programming in C# using the Microsoft.NET Framework and related libraries, packages
2. Analysis and Design
3. Testing and Documentation
4. Database programming using Microsoft SQL Server
5. Perform other related duties as directed or required
6. Interaction with members, employees and associates to gather requirements and scope of work

### **SUPERVISORY RESPONSIBILITY**

No supervisory responsibility.

### **INDEPENDENCE/SUPERVISION RECEIVED**

Duties are performed independently to achieve assigned objectives; however, methods and procedures may not be specifically defined. Employee may be required to develop or research appropriate methods and procedures to be used.

## GENERAL QUALIFICATION REQUIREMENTS

### **Knowledge and Experience:**

Three or more years of C# programming experience required. Experience in web technologies, specifically ASP.NET, Web Services and HTML5/CSS using C# and SQL Server experience are required. Windows Forms or WPF development along with experience using Ektron CMS and/or iMIS would be a plus. High school diploma or GED equivalent. Bachelor's degree with a major in Information Systems, Computer Science, or Business preferred.

### **Skills and Abilities:**

Ability to understand and follow oral and written instructions and deal effectively with members, employees and associates. Must be flexible, organized and able to plan work which requires evaluating facts to determine courses of action. Good communication and interpersonal skills are essential. You need to be self-motivated and able to work independently with minimal supervision as well as work as part of a small team.

### **TO APPLY:**
