

When you think **Community**

Think **TMA**

As a newly minted Texas physician, you can turn to Texas' dynamic medical community for opportunity and support — and some fun, too.

Plug in Locally

Your local county medical society can help you build friendships and connections close to home. From networking to CME to family events, getting involved is an important step for your life and your career.

Get in Touch Statewide

Texas is a big place, and the Texas Medical Association stretches far and wide. Beyond giving the Texas physician community a united voice and numerous benefits and services, TMA offers annual opportunities to meet with your colleagues from around the state.

Rise Above the Ordinary

Want to take a more Texas-size role among your peers? The TMA Leadership College teaches you how to advocate for change and be an effective leader in your practice, your community, and organized medicine.
