

TMA and Your County Medical Society: A PHYSICIAN'S STRONGEST ADVOCATES

The 86th Texas legislative session begins in January, and with it comes a slate of tough issues to tackle that could affect your practice and your patients for years.

Do you know who'll be fighting for you? TMA WILL.

TMA and your county medical society are gearing up to protect you, your patients, and your profession. We will fight to preserve the integrity of that care, and to defend the sanctity of the patient-physician relationship.

There's much to be done, and we know from experience our voice is most effective when we work together.

TMA LEGISLATIVE PRIORITIES

- Drastically reducing maternal morbidity and mortality
- Stopping insurance companies' ever-more-creative schemes to avoid paying for our patients' care
- Expanding graduate medical education to keep up with the needs of Texas
- Reducing physicians' cost of participating in Medicaid
- Reauthorizing the Texas Medical Board, and ensuring fair treatment for physicians involved in the board's disciplinary process
- Eliminating unnecessary and intrusive federal regulations
- Preventing inappropriate scope of practice expansion by nonphysicians
- Protecting our historic 2003 liability reforms
