

# **STOP SENATE BILL 1001**

## **By Sen. John Carona**

**SB 1001 is a dangerous bill.**  
**SB 1001 puts the health and lives of Texas patients in danger.**

It puts the Texas Board of Chiropractic Examiners on a pedestal. **TBCE would have carte blanche authority to do whatever it wants — by rulemaking — without legislation.** No other health licensure state agency could sue TBCE — even when the board is clearly operating outside its legislative authority.

**This puts Texas patients in harm's way.**

TBCE has a long track record of using rulemaking to push the scope of practice of chiropractors beyond the legislative boundaries. The board's aggressive actions have been stopped in the past only through lawsuits.

**SB 1001 must be stopped.**

**X VOTE "NO" ON SB 1001**
