# WHAT WE DO TOGETHER, NO ONE PRACTICE CAN DO ALONE.

Today we are faced with a crisis unlike anything we have ever seen. **Through it all, the Texas Medical Association stayed true to our mission: providing solutions to the challenges you face in the care of your patients.** From providing donated personal protective equipment (PPE), advocating for telemedicine options and payment parity, and providing practical resources to keep your practice viable, TMA has worked to support physicians in all specialties and practice settings, regardless of membership status.

The 87th Texas legislative session is right around the corner. TMA will continue to advocate on your behalf, to protect the patient-physician relationship, and ensure you will be there when Texas patients need you.

Please share any extra PPE from this shipment with physicians and other healthcare professionals in your community.
